Matt Westover

Full-Stack Developer

Profile

I am a full-stack developer who recently graduated from the University of Utah's Professional Education program through DevPoint Labs. I have a deep passion for both front and back end development and thrive in the fast paced constantly evolving software engineering world.

Experience

Developer - **DevPoint Studios** - Winter 2018/19

Software development firm working developing web applications
Worked in agile team of 5 to develop ticketing and table reservation application for night clubs. Responsible for making app dynamic for different clubs, image uploading, event management, monthly event listings, code reviews, and styling consistency.

Two Time Hack-a-thon Winner - **DevPoint Labs** - Winter 2018/19

Participant and member of winning teams for both Winter 18/19 Hack-a-thon events at DevPoint Labs
Created a Travel Tracking App and "UToob" App
Completed all primary app objectives and multiple secondary objectives within tight time constraint. Highly competitive setting with no prep time or early information on teams. Designated team leader on both projects by teammates.
